White Zweigart Aida 15 count Finished size of the item 18x24 cm

Please read the manual to avoid mistakes!

- First it is advisable to find the center of the canvas (**T2**). Combine it with the design center, shown by arrows on the chart.
- The work is made with a cross-stitch in **2**-thread cross-stitch.
- Check the color of the threads in **T1**.
- The work will look good if all upper stitches are inclined in one direction (**T3**).
- Try to avoid making knots. At the beginning fasten off your thread by doing several stitches over the fabric that afterwards will be hidden by the embroidery. In following put the thread end under the stitches on the reverse side to fasten it off (**T4**).
- When finished iron the reverse side of the design.
